We know that your belongings and items tell a story of your inspiration, transformation and progress. Your items tell a story that cannot be bought with any currency.

The Fushia Zero-Scratch™ packing and handling system gives your items the well-deserved velvet touch and ensures that all your items get zero scratches, dirt or dents.

The Fushia Insurance Cover by GA Insurance ensures that any of your items that's lost or damaged is replaced 100% if it's packed, handled or moved by the Fushia MoveMate crew.

The Fushia 2-In-1 Warranty guarantees you that you have nothing to lose in moving with Fushia

Fushia doesn't just move your houses and offices, we move your homes and communities.

That's why Fushia has partnered with all the relevant players to ensure that your end-to-end moving process is smooth and seamless.

We've partnered with Art Caffe, Java & KFC to ensure that you and your family celebrate the entry into your new home with top-rated cuisines.

Our core business is to provide you with a seamless, smooth and hustle-free moving experience in a simple 4-step process:

1. Arrival:

- Our Kenyan DCI-tested and Zero-Scratch™ Certified MoveMate crew arrives on time at your new home or office.

2. Set-Down:

- Our MoveMate crew packs all your items with our velvet touch using the Zero-Scratch™ packing and handling system.

3. Delivery:

- Our MoveMate crew loads all your packed items through the red carpet into our clean, closed and branded truck.

4. Set-Up:

Website: fushiamovers.com

- Our MoveMate crew off-loads all your items and customizes the set-up of your new home or office just the way you want it.

Smooth Moves.

Page: FAQs - Fushia - Best Moving Company in Nairobi

There are 3 main factors that determine the cost of a move:

To get the exact amount for how much your moving will cost, we may need to conduct a physical survey to get the above details from you.

To request for a survey, please call us on 0795 333555

We also offer the following services:

Yes, we fully insure any consignment we move and the proof of insurance with the details of the insurer and insurance details is freely given upon request. In the event that your items are lost or damaged during a move, Fushia Movers will compensate for the loss or damage of any items affected during the move.

We are located in Westlands, Nairobi. Specifically, we are on 6th Floor, Kenrail Towers, Southern Wing. Kenrail Towers is located next to 9West Hotel and directly opposite Movenpick Hotel.

This depends highly on the size of the house/office being relocated. For example, a regular 2 BR House would require 5 to 7 movers whereas a 3BR House may require 6 to 8 movers depending on the quantity of items in the house and how many floors there are to be covered at the origin and destination.

Concerning offices, a regular office with 5 to 15 staff members would require 5 to 8 movers depending on the quantity of items in the office as well as the number of floors to be covered at the origin and destination.

Impact Water Ltd, an organization that distributes water tanks to schools around the country in Kenya, wanted to move from Westlands to Lavington in Nairobi.

Impact Water needed a reliable partner with sufficient capacity to move their office of about 50 staff together with about 200 water tanks they had in stock. The office moving had to be done in a single day to ensure minimal interruption of their office operations.

Our move consultants assessed the office and the size and quantity of the tanks to be moved to Lavington, gave a reasonable quotation and Fushia got the job.

Our team arrived on time, moved the office and all the tanks to the new location without any hassle. The following day, all the items and workstations for the staff were in place ready for them to work and Impact Water has been very happy and continues to call us for more moving, transportation and distribution jobs.

Mohamed Abdalla is new to Nairobi, Kenya. Being new to Kenya, he had no idea which movers to use and how to get them. He went online and googled “Movers near me” and Fushia Smooth Moves came up.

It wasn't just about moving houses for Mohamed, he wanted a reliable moving company that could immerse him in the new community so that he would not feel helpless during and after the process.

Mohamed was advised by our Move Consultants to subscribe to the Partment Package. Our MoveMate crew packed his items from his old home at Runda and transported them to Muthaiga in a clean and closed branded truck. Once in Muthaiga, our MoveMate crew customized the set-up of his new home the way he and his wife wanted it to be.

Our MoveMate crew arrived for the relocation 15 minutes before the agreed time. Our customer service team provided Mohamed with useful and relevant contacts to help him connect and get help from the community.

When everything had been set-up at the new home, the Fushia crew delivered dinner to Mohamed, his wife and their 2 kids from Art Caffe and they moved smoothly ever after.

Dr Oluoch has a with a very busy schedule. Juggling up to 2 surgeries per day alongside multiple patient consultations at his private clinic, Dr Oluoch didn't have time to supervise his relocation.

Unfortunately, Dr Oluoch had an impromptu surgery scheduled on the day he planned to move. How could he handle the impromptu surgery to save a life while also supervising the relocation of his 2 Bedroom house from Loresho to his newly built home in Rongai? He called on short notice and wanted to move on the same day because he had to vacate the old house since a new tenant had to occupy that house the following day.

Fortunately, the Fushia QuickMove package was designed for busy professionals like Dr Oluoch. He called our 247 Customer Service line and a move assessment was made via the phone and a quote sent to him within 5 minutes. Dr Oluoch's move was led, managed and handled in his absence.

The Team Leader of our MoveMate crew supervised the whole relocation process on behalf of Dr Oluoch right from the old house into his new home in Rongai. The Team Leader of our crew then delivered the house keys to Dr Oluoch at his private clinic on Ngong Road. Dr Oluoch called the following day elated to find his new home the same way he had instructed our MoveMate crew.

Page: SkyShift Move - Fushia - Best Moving Company in Nairobi

Ken Adelakan is a West African national from Ghana who travels around the world for business. Every 3 months or so he moves from continent to continent for his strategy consulting business.

Having being new to Kenya, he didn't know any movers who could help him relocate his household items to the next destination point at Cologne, Germany. A friend of his that Fushia had moved locally suggested that he gives Fushia a try to move him to Germany. Of specific interest to Ken were how we would pack, handle and transport his fragile Chinese vases as well as his priceless art pieces that he has been collecting on his trips around the world. Adelakan also wanted us to know how we would move, Samantha, his pet dog. Samantha gets moody any time she's handled by strangers or if put in unfamiliar environments. The Fushia crew had our work cut out.

In comes the SkyShift package, designed to move you and your pets like diplomats. Fushia deployed military-grade packaging materials as well as the Fushia zero-scratch packing standard to ensure his Chinese vases and priceless art pieces don't get scratched, dented or dirty. To help Adelakan cope with the stress of relocation Fushia offered relocation counseling and coaching to Adelakan and Samantha, his pet. Fushia, through our counseling and coaching partners, offered Adelakan and Samantha relocation counseling to prepare both of them for their trip to Germany.

We offered Adelakan Sea and Air freight options but since he didn't have any time constraints, he decided to have his items shipped via Sea freight. We scheduled the consignment to arrive in Cologne, Germany within 28 days and it arrived within 24 days. The Chinese vases and the priceless works of art arrived intact without scratches, dirt or dents. Samantha was relatively calm, during the relocation and arrived safe and sound in Germany.

George Nyanja, owns a printing business and wanted to transport an industrial generator with an 800 kVA rating from the CBD in Nairobi to Upper Hill, Nairobi. While moving Nyanja's office, he asked if we could move his generator.

Being very heavy and sensitive, he needed a team with the technical know-how and capacity to effect the transportation of the generator. The generator had to be removed from an enclosed space and so had to be removed very carefully to avoid damaging the surrounding walls and fittings.

Our crew physically assessed the location of the generator to ensure we could bring the correct self-loader truck or crane to lift and move it. On the day of the move, we deployed one of our biggest mobile cranes that could not topple over while being moved. We hoisted the generator on the truck and delivered it to Upper Hill, Nairobi.

The generator was moved and settled at the new office in Upper Hill. Nyanja's technician tested it, connection was made to the office appliances and equipment and it was a light bulb moment for everyone involved in the relocation and moving of the 800 kVA Generator.

Suzan Woyenka is a professional working with one of the international NGOs based in Kenya. Once in a while she's posted abroad and around East Africa sometimes for several months at a time.

Suzan could not keep paying rent for months at a time when she was away on official matters. And it wasn't practical for her to move with all her household items everywhere she was posted because the duration of stay in those areas was unpredictable. One day while our move consultant was talking to Suzan, she mentioned her predicament about having to pay rent for her Lavington apartment for months at a time while on official matters abroad.

Our move consultant introduced her to our SafeBox package where anyone, like Suzan, can store their household items and other valuable items and equipment or even vehicles for a fraction of their monthly rent. The SafeBox package Suzan chose reduced her monthly rental expenditure by up to KES 70,000 per month. Suzan says that she saves about KES 200,000 every time she has to stay away from her house for 3 months while away on official duty. She also doesn't have to worry about moving her items to and from our storage because our MoveMate crew do all that for her.
