We provide the following services at affordable rates, to suit your pocket and sooth your mind.

Page: Legacy Movers - About Us

Legacy Movers was formed in 2016 with a mission to provide comprehensive and competitive removal and logistics services to families and businesses worldwide. From planning and logistics, to unpacking and setup, we will move you safely and efficiently. Quality service is our number one priority as 80% of our jobs come from family and friends referrals. Your Legacy move coordinator will be there with you every step of the way. Our dedicated team of sales executives, surveyors, packers and movers provide excellent removals and related services to our diverse clientele that includes individuals, banks, NGOs, insurance companies, diplomatic corps and government bodies in Kenya and within our global network. The company aims to take the handling of personal goods to new heights and impart dignity and a high level of sophistication.

Our key focus and goal is to understand our clients experience from their point of view. We see this as our central focus that drives every aspect of how we conduct our business and relate to our customers.

At Legacy Movers, we're up-front and open about our fees. Whatever we agreed to charge you, that's what you pay – no add-ons, no hidden fees, or additional charges.

Moving is stressful enough without having to worry if your movers will be on time. With Legacy movers, that's never an issue. Nothing matters more to us than ensuring your move goes as smoothly as possible. That's why we consult with you well in advance to agree on a day and time that works for you – and we stick to it.

Entrusting anyone other than yourself with your stuff can be scary, we get that. But with Legacy Movers your belongings are in good hands. From the get-go, our team of friendly, experienced movers will treat your household items with care and respect, handling your valued possessions as if they were their own.

Our office relocation services are designed with your company's functionality and productivity in mind. We understand your need to have a smooth, seamless transition for your employees from one location to the next.

We realize this as your corporate relocation company, but also as a successful business ourselves.

Now more than ever it's imperative that your business keeps moving forward. And nobody knows that better than you. Because, when it comes to relocating your people, you don't have time to deal with problems like real estate negotiations or special financing. These interruptions stop business. At Legacy Movers, we work diligently to eliminate the bumps that prevent you from running your business smoothly.

At Legacy movers, we deliver relocation solutions to help you handle your personal relocation and mobility services. We understand that a move of this nature can be complicated and stressful. Our team of professional agents and property management specialists are here to listen to your needs and help you and your family to find the perfect home and offer a smooth transition. Our entire network is constantly monitored to ensure consistent service delivery and that the newest, best practices are being implemented.

List contents and room on the outside of the carton. Clearly mark “Fragile” on the outside of cartons containing delicate items. Pack all cartons tightly and use professional packing tape to seal the boxes.

Pack items first that you don’t use frequently. Start packing as soon as you find out you are moving. Never pack flammable items or non-allowable items. Use generous amounts of newsprint paper and or bubble wrap inside the carton on the top and bottom to provide good cushion.
